Experience

CarMax

Product Designer II

July 2022 — Sept 2026

- Helped lead the refresh and redesign of the CarMax Auctions dealer registration experience, owning research, discovery, and design, and cut the time it takes to become an active dealer
- Designed the damage assessment detail card for auction customers, giving dealers a clearer read on vehicle condition before they bid; validated through research, with 94% of 50 surveyed dealers preferring the final direction
- Designed navigation and vehicle detail experiences for CarMax Auctions in partnership with the core product team
- Partnered with stakeholders across multiple product teams to align on priorities and ship work grounded in dealer needs

Contract Product Designer

Feb 2022 — July 2022

- Identified user pain points and designed email campaigns guided by product principles
- Partnered with stakeholders on solutions that built trust and transparency with customers
- Helped drive the design team's adoption of Figma within the first few months

Dynamic Marketing Systems (DMS)

UX Designer

Nov 2019 — Jan 2022

- Worked on mobile products for multiple airlines, including American Airlines, JetBlue, and Frontier Airlines
- Designed a tool for flight attendants to track incentives, set goals, and monitor progress during their tenure in the program

Sr. Digital Designer

Nov 2017 — Nov 2019

- Created design files for both web and print
- Led HTML email design and development for clients

HTML Email Developer

Nov 2015 — Nov 2017

- Developed weekly and recurring HTML emails
- Provided site maintenance for several airlines
